DETAILED ACTION***Election/Restrictions***

Linking claim 23 is allowed. Since the restriction requirement between inventions I and II, as set forth in the Office action mailed on 9/22/04, was conditioned on the nonallowance of the linking claim(s), **the restriction requirement as to the linked inventions is hereby withdrawn.** Claims 24-28, previously withdrawn from consideration as a result of the restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement as to the linked inventions, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

disclose the compensator as a negative C plate retarder or as combined with an O plate retarder.

Koch discloses an optical compensator having a C plate retarder and an O plate retarder, but fails to disclose the C plate retarder as having a helical pitch of 250 nm. Chung addresses several techniques for construction of an A plate, but fails to address construction of a negative C plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
